

ABOUT ASECAP

ASECAP is the European Association of Operators of Toll Road Infrastructures, whose members' networks today span more than 46.000 km of motorways, bridges and tunnels across 21 countries.

ASECAP's purpose is to defend and develop the system of motorways and road infrastructure in Europe applying tolls as a means to ensure the financing of their construction, maintenance and operation.

WINTER MAINTENANCE PRIORITY: to keep traffic moving in safe conditions

*Surveillance and anticipation - Professionals mobilised
24 hours a day, 7 days a week.*

Take action even before snow sets in or ice starts forming, anticipate phenomena and make the right decisions at the right time, with good coordination and information of all partners involved.

Coordination of the various actors

Actions to be implemented so as to manage these situations, both in terms of traffic management and informing and helping motorists.

Launch suitable actions at the right time, under the winter management plan with modern equipments, weather forecast tools....

At the heart of the system skilled people: patrols people in the field, Police and local authorities in a coordinated action with suitable measures.

Managing crises

The aim of the emergency snow plans is to ensure safety of road users under all circumstances by:

- Managing road traffic
- Avoiding motorway blocking
- Providing real time information
- Bringing help and assistance to users if they do get blocked.

WINTER MANAGEMENT ACTIVITIES
ARE FINANCED AND MADE POSSIBLE
THROUGH TOLLING

Few figures from some ASECAP Members (Austria, Denmark, France, Italy, Spain)
